(b) Mobile panic alert systems must include mobile devices placed throughout each school campus. In determining the number and placement of devices needed to afford all staff members the ability to silently and easily activate a panic alert in the event of an on-campus emergency, districts must consider using a combination of fixed panic alert buttons, mobile and desktop applications, landline phone capabilities, and wearable panic alerts (such as on a lanyard).

All reported threats, even those determined not to be a threat, must be documented by the threat assessment team. Documentation must include the evaluation process and any resultant action. Requirements for retention, maintenance, and transfer of threat assessment records are found in Rule 6A-1.0955, F.A.C. Because the purpose of the threat assessment is to identify and intervene in response to threats to school safety, completing a threat assessment does not require parental consent; however, a student’s parent must be notified if the threat assessment process reveals information about a student’s mental, emotional, or physical health or well-being, or results in a change in related services or monitoring. Threat assessment teams must follow local district policies and procedures for required parent notification.

(e) Training. All threat assessment team members must be trained on the CSTAG model. For assistance in accessing this training, districts must contact the Office in writing at SafeSchools@fldoe.org.

Each school-based threat assessment team must meet as often as needed to fulfill its duties of assessing and intervening with persons whose behavior may pose a threat to school staff or students, but no less than monthly. Districts must adopt policies requiring threat assessment teams to maintain documentation of their meetings, including meeting dates and times, team members in attendance, cases discussed, and actions taken.

(g) Reporting. Each district must ensure that all threat assessment teams in the district report to the Office on the team’s activities during the previous school year. The district school safety specialist must ensure all schools in the
district timely report information required by this paragraph. Information is due by October 1 and must be reported using the FSSAT: Beginning in the 2022-23 school year, the total number of threat assessments conducted, disaggregated by the total number of non-threats, the total number of transient threats, the total number of substantive threats, and the sex, race, and grade level of all students assessed by the threat assessment team.

1. Each district must establish policies to provide notification to parents of threats and unlawful acts or significant emergencies as defined in Section 1006.07(4)(b), F.S., that occur on school grounds, during school transportation, or during school-sponsored activities.

2. District policies must address the timing, content, scope, and manner of notification, circumstances when law enforcement must be consulted, and the person or entity with responsibility for parental notification, and involvement of the threat assessment team. In making these determinations, district policies must take into consideration the nature of the reported threat or incident, whether the threat or incident is ongoing or resolved, whether the threat is transient or substantive, and whether there is an imminent threat of harm to students and the campus community.

3. In the case of an imminent threat of harm to students, including an active assailant incident or hostage situation, notification to parents must be made as soon as practicable. Such notification should be made in consultation with local law enforcement and first responders in order to avoid compromising the safety of students and the efficacy of the emergency response and investigation.

4. In determining the content of notifications to parents, districts must consider including specific information about the threat or incident necessary to inform parents and safeguard the community as determined by the threat assessment team, or other person or entity responsible for parent notification. Such information may include the date and time of the incident, the location and nature of the threat or incident, how and whether the threat or incident was resolved, a description of the suspect (where applicable), crime prevention and safety tips, and crime and threat reporting information.

5. Notifications must be made in accordance with the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. s. 1232g, 34 C.F.R. Part 99, and Section 1002.22, F.S.

The school security risk assessment is not required for virtual schools or programs that do not have a physical school site.

(c) School safety specialists must report by October 15 each year in the FSSAT that required school security risk assessments are completed, as provided in Section 1011.62(15), F.S.

(d) School safety specialists must provide recommendations to the district school board and the district school superintendent, identifying strategies and activities the board should implement to improve safety and security, as provided in Section 1006.07(6)(a)4., F.S.

(e) Within thirty (30) days after the district school board meets to receive such findings, but not later than November 1, school safety specialists must submit a district best-practices assessment in the FSSAT which includes the school security risk assessment findings and recommendations as provided in Section 1006.07(6)(a)4., F.S.

(f) Each school district must develop policies that allow charter school personnel input access to the FSSAT or where input access is restricted to district personnel, develop policies for gathering information from charter schools so that FSSAT reporting requirements, including those for Fortify FL, threat assessment teams and active assailant
response plans, include data from charter schools.

3. Any actual emergency or response to alarm system must qualify as a drill.

(c) Requirements for all emergency drills.

1. Drill types. Each type of emergency drill must be conducted as frequently as specified in this rule. Required drill types are active threat, fire and severe weather drills.

3. Notification. During emergency drills and during actual emergencies, schools must use plain language to
communicate the nature of the emergency and instructions to students and staff. Plain language means communication that can be understood by the intended audience, which is free of coded language, jargon, and acronyms, and meets the purpose of the communicator.

4. Conditions of emergency drills must vary during the school year in order to provoke options-based responses from participants. Drills must be held at both expected and unexpected times and under varying conditions that require school staff and building occupants to take protective actions based on the specific circumstances of the simulated incident.
